## OBJECTIVE

---

I am eager to pursue a dynamic career in the field of Information Technology, where I can leverage my skills and enthusiasm to drive the organization's success. I aim to contribute meaningfully to projects while continuously enhancing my knowledge and abilities by collaborating with experienced professionals in a supportive and innovative environment.

## SKILLS

---

Front-End Development:	Proficient in HTML, CSS, JavaScript, Bootstrap, AJAX and modern front-end frameworks.
Back-End Development:	Experienced in server-side programming with languages like PHP, Python, Basic Core Java. Familiar with back-end frameworks.
Databases:	Strong understanding of SQL and NoSQL databases, including MySQL, MongoDB and database design principles.
Tools:	Visual Studio Code, Git, Atom, Sublime Text, PyCharm (for Python).
Problem-Solving:	Excellent analytical and problem-solving skills, with a track record of resolving complex issues.

## EXPERIENCE

---

### Software Developer

Magic Script Digital Pvt Ltd, Hanspal, Bhubaneswar

Dec 2023 – Present

- Developed and maintained client websites and applications, ensuring seamless functionality and optimal performance.
- Identified and resolved technical issues, implementing necessary updates to enhance efficiency and user experience.
- Worked closely with senior developers to integrate APIs and third-party services, improving website features and interactivity.
- Demonstrated a strong ability to deliver high-quality web solutions, optimize performance, and collaborate with cross-functional teams to achieve project objectives.

### Software Developer

Axellance Code Soft Pvt. Ltd, Behera Sahi, Nayapalli, Bhubaneswar

Mar 2023 – Dec 2023

- Assisting in the development and maintenance of web applications, debugging issues, and implementing enhancements.
- Collaborating with senior developers on real-world projects, improving coding standards and problem-solving skills.
- Delivered **high-quality web solutions** and collaborated with cross-functional teams to meet project objectives.

PROJECTS

---

Nextxen Leaning

An interactive online learning platform designed to help students master topics and practice questions beyond the classroom. It personalizes learning by adapting to each student's strengths and weaknesses, ensuring a customized educational experience. The platform enhances fluency and confidence through engaging, interactive exercises. Developed using **PHP, JavaScript, MySQL, and Bootstrap** ensuring a user-friendly and efficient healthcare solution.

E-commerce Website

Developed a **fully functional e-commerce platform** with **PHP, MySQL, and JavaScript**. Implemented features such as **user authentication, product management, shopping cart, payment gateway integration, and order tracking**, ensuring a seamless online shopping experience.

Email Extractor

Built a robust web scraping tool using **Python and Regular Expressions (RegEx)** to extract email addresses and relevant content from websites, social media, email clients, and search engines. The tool can also scan files and folders on computers and networks to collect email data efficiently.
